SUMMARY

Mechanical Engineering graduate currently pursuing a Master's in Product Development at Chalmers University of Technology. Strong interest in hands-on engineering, product development, and collaborative problem-solving. Experienced in CAD, rapid prototyping, and iterative design through academic projects, professional experience, and personal product design work. Curious, motivated, and eager to contribute to real-world engineering projects while learning from experienced teams.

WORK EXPERIENCE

Product Design Engineer, Engino Net - Limited **Dec 2024 - May 2025**

- Research, Design and Development of DIY projects using Engino parts with FDM and Laser Cutting Technologies
- Redesign of existing model sets with new and improved Engino Parts
- Teaching and coordinating Robotics classes for children from ages 4-12

Owner / Product Designer, Grainy Designs **Jan 2022 - Ongoing**

- Create and sell original 3D-printed products exclusively via my personal e-commerce website.
 - Design specially requested products for customers - Freelance Designer
-

EDUCATION

Master of Product Development **Sep 2025 - Ongoing**
Chalmers University of Technology

Bachelor of Mechanical Engineering **Sep 2018 - Jun 2024**
Cyprus University of Technology

- Final CGPA : 6.75
- Dissertation Score: 10

LANGUAGE SKILLS

- Greek (Mother Language)
 - English (IELTS: 8.0)
 - Spanish (A2)
-

TECHNICAL SKILLS

- CAD Design (Solidworks, Fusion 360, Autocad,Catia,Alias)
 - 3D Printing & Laser Cutting
 - Programming (Arduino IDE, Matlab, Fortran)
 - ECDL Certified (Microsoft tools)
 - Video and Photo Editing (Premier Pro,Photoshop,Lightroom,Canva)
-

SOFT SKILLS & HOBBIES

- Ability to work under pressure
- Critical thinker & Problem solver
- Methodical & Organised
- Adaptable in any circumstances
- Visionary & Curious
- Digital & Analog Photography
- 3D Modeling
- Darkroom technician
- Volunteering
